New York Stock Market.

New York, September 18.—Government bonds dull but firm.

Stocks again displayed more activity and strength than for a long time past. Reading, as was to be expected, was a prime feature in trading, but unlike the remainder of the list, it shows the smallest decline at the end of the day, although in the morning its prices touched 35, the highest yet reached. There was nothing new in regard to it excepting the acceptance, by Corbin, of the presidency, which appointment meets the full approval of the street. The market opened firm and steady, the first prices being generally $\frac{1}{2}$ to $\frac{3}{4}$ above the final figures last evening, but Delaware and Hudson was up $\frac{1}{4}$, Reading $\frac{1}{4}$ and Jersey Central 1. Succeeding trading was active, especially in Reading, Western Union and Lackawanna, but prices were feverish and irregular, though generally strong. Reading, however, after touching 35, dropped 1 percent. In many cases the highest prices of the day were reached in the latter part of the first hour. Irregular but generally firm markets succeeded, until toward the close, when prices again moved up. The market closed strong, at about the best figures reached.

The Bulgarian Matters.

SOFIA, September 18.—When the Russian agent here was presented with the Sobranje's telegram to the Czar, praying for his friendship and protection, the agent said: "Prince Alexander's departure has removed the obstacle to good relations between Russia and Bulgaria, which was a source of great danger to the prosperity of Bulgaria, which Russia has at heart. Russia cannot admit even the idea of Prince Alexander returning to Bulgaria. This fact, therefore, is one guarantee of the happiness and internal independence which your telegram mentions. Remember well that the Powers have not yet formally sanctioned the present order of things in Bulgaria, and their sanction can only be acquired by prudence and moderation of the present government, and in the measures of the future great assembly. Russia never protected any party Russia desires harmony among you all and she especially desires that your government should be above all party spirit." The President of Sobranje then questioned the agent regarding the identity of a new candidate for the Bulgarian throne. In reply that would entirely depend upon the Powers, in his private capacity, he added he had no information to give saying that the jury which elected does not know what it will have to adjudicate. The Assembly must elect whom it thinks the best capable of representing the dignity of Bulgaria. The Russians in Bulgaria deny all complicity in the seizure and deposition of Prince Alexander, but have advised moderation in the treatment of those who were implicated in order to maintain quiet and prevent the discontent from spreading. The Russians consider that now the object of the plot is removed, no one can proceed against the actors in the plot. Bulgarians rejoice that the Bulgarian question has assumed a more international character. They think this tends to avert the danger of armed occupation. Bulgarian deputies are anxious to know what candidate for the Bulgarian throne would be acceptable to the Powers, before proceeding to the election of Prince Alexander's successor, and they are unwilling to choose a candidate whom the Powers might reject. The Sobranje closes its present session to-day.

A ukase will be read before the adjournment, fixing the date for election of the great assembly which is to elect the new Prince.

Driven Ashore.

St. John's, N. F., September 18.—All that has been ascertained of the wrecked steamship in Bellisle Strait is that cattle, oak-grained panelling and doors, spars, bedding, and cabin furniture have been driven ashore. The ship has not yet been identified. There is no telegraphic communication with Bellisle Straits.

To Secure Circulation.

WASHINGTON, September 18.—Of the \$15,000,000 3 per cent. bond included in the 142d call, about \$100,000 are held to secure national bank circulation.

Washboards are a Nuisance

—AND—
SHOULD BE DONE AWAY.

There is no necessity for a washboard, or a scrub brush, or a washing machine in washing your clothes. The clothes are frequently worn out more by such methods in washing, than by the usual wear. If you will use the Le Roi des Savons, or King of Soaps, and use it faithfully according to the directions upon the wrapper, you can do your washing without half an hour's hard work, and your clothes will be perfectly clean and pure and white. It is the best bleaching soap in use. It will cost you but a trifle to test it.

Try it, and try it faithfully. You will be both surprised and delighted.
